

Broads Green Name Signs

1 Introduction

The Parish Council approved the principle of providing road name signs in response to a Highways Improvement Request from a local resident at the meeting on 13th July 2020. The request sought to reduce traffic speed and make drivers aware that walkers and cyclists are likely to be in the area. The traffic count requested by the Parish Council showed that recorded speeds were below the level that would trigger any action by the Police. In discussion with the resident the suggestion of name signs for the hamlet to let drivers know that they were driving through a community was suggested and subsequently considered and approved.

2 Sign locations

The local Highways engineer has approved the suggested sites for the 3 name signs.

3 Quotes for the name signs

Signs are in die cast aluminium with either recycled or steel posts. Advice is that steel are more durable. The text for road signs can be either Kindersley or MOT, Kindersley is used for street signs MOT more for Road Direction signs.

The Clerk has three quotes for name signs as follows:
