

# Best Kept Village Competition results are in!

Following our first attempt to enter the Best Kept Village competition, we have achieved second place in the large village group.

Box won with 88 points, with us close behind with 86 and Hullavington came third with 75 points.

The judge's report was very complementary, noting that everywhere was very well maintained, litter free, neat hedges and grass areas. The orchard is a great asset. Clearly a great community spirit with many activities and facilities which were well communicated to the village. They also identified a couple of things we could improve, which we will address in due course and hopefully win the top slot next year.

Thank you very much to everyone for your ongoing hard work making our village so presentable and such a great place to live. Also, thanks to the Community Committee and the Parish Council for their support and continuously looking for ways to improve our village.
