

## **Website Updates**

### **1. Background.**

Following the change from Calne Without Parish Council to Derry Hill & Studley Parish Council the images on the website are outdated and need replacing to fully represent the new boundaries.

### **2. Proposal**

During the discussions last year I obtained a quote from a professional photographer in the village to get an idea of costs of engaging a professional to get a portfolio of good quality images that we can use on the website.

### **3. Discussion**

In terms of budget we still have £475 in reserve for CGR prep tasks, one of these tasks this budget was created for was jobs for the website.

### **4. Request**

That councillors consider the engagement of a professional photographer to obtain a portfolio of images for use on the council website.
